

WhatsApp Chatbot - Agent Knowledge Base

This document helps you answer user questions about the jewelry composite shot generation service via WhatsApp.

How It Works

What This Service Does

We use AI to create professional model shots of jewelry. You upload a product image, and we generate a composite image showing your jewelry on a model.

Simple Steps for Users

1. **Send a product image** via WhatsApp
2. **Wait ~60 seconds** while we process it
3. **Receive your composite shot** showing the jewelry on a model
4. **Try different templates** if you want a different look (uses 1 credit)

First Time Users

- New users need to **register** by providing:
 - Your name
 - Your brand/business name
- You'll receive **3 complimentary credits** when you create your account
- After registration, you can start uploading images

Pricing & Credits

Credit System

- **1 credit = 1 composite shot generation**
- **1 credit = 1 retry** (to try a different template with the same image)

Credit Packages

Starter Pack

- **20 Credits** - ₹1,000 + 18% GST
- Price per credit: ₹50
- Total: ₹1,180 (including GST)

- Best for: Trying out the service

****Popular Pack****

- ****1,000 Credits**** - ₹40,000 + 18% GST
- Price per credit: ₹40 (20% discount)
- Total: ₹47,200 (including GST)
- Best for: Regular users

****Bulk Pack****

- ****5,000 Credits**** - ₹1,75,000 + 18% GST
- Price per credit: ₹35 (30% discount)
- Total: ₹2,06,500 (including GST)
- Best for: High-volume users

Payment

- Secure payment via ****Razorpay****
- Credits are added ****automatically**** after payment
- ****18% GST**** is applicable on all purchases

How to Purchase Credits

Users can:

- Type ****"credits"**** to see purchase options
- Click on credit package buttons
- Reply with ****"20"**, "**1000"**, or "**5000"**** to purchase specific packages

Type *credits* to purchase!

...

Q: How does this work?

A:

...

 *How It Works*

1. Send me a product image of your jewelry
2. I'll process it (takes about 60 seconds)
3. You'll receive a composite shot showing your jewelry on a model
4. Want a different look? Type *retry* to try another template!

 *Tips for best results:*

- Use good lighting
- Keep background simple
- Focus on one piece at a time
- Make sure jewelry is clearly visible

Ready to try? Just send me an image! 

...

Q: What do I need to do?

A:

...

 *Getting Started*

1. **First time?** Send me an image and I'll help you register (takes 1 minute)
2. **Already registered?** Just send me a product image!
3. **Need credits?** Type *credits* to see purchase options

That's it! I'll handle the rest. 

...

Q: How long does it take?

A:

...

Processing Time

Each composite shot takes about **60 seconds** to generate.

I'll send you a message when I start processing, and another when it's ready!

...

Q: What types of jewelry do you support?

A:

...

Supported Jewelry Types

- Earrings / Earring
- Necklace
- Ring
- Bracelet / Bangle
- Watch
- Pendant
- Choker
- Nose Ring
- Maang Tikka
- Anklet
- Brooch
- Chain
- Long Necklace

Just send me an image and I'll detect the type automatically!

...

Q: Can I try different templates?

A:

...

Trying Different Templates

Yes! After receiving your composite shot:

1. Click the *"🔄 Try Another"* button, OR
2. Type *retry* or *try again*

This will generate a new composite with a different template using the same image.

Note: Each retry uses 1 credit
...

Q: What if I don't have credits?

A:
...

🚧 *No Credits?*

No problem! Here's what you can do:

1. Type *credits* to see purchase options
2. Choose a package that works for you
3. Pay securely via Razorpay
4. Credits are added automatically after payment

New users get 3 complimentary credits when they register! 📺
...

Q: What if the category is wrong?

A:
...

🤖 *Category Detection*

I automatically detect the jewelry type, but if I'm not sure, I'll ask you to confirm.

Just reply with the correct category (e.g., "earring", "necklace", "ring") and I'll use that instead!

Common categories: earring, necklace, ring, bracelet, watch, pendant, bangle, choker
...

Q: What if no jewelry is detected?

A:
...

❌ *No Jewelry Detected*

If I can't detect jewelry in your image, here are some tips:

📸 *Tips for a great product shot:*

- ✓ Make sure the jewelry is clearly visible
- ✓ Use good lighting (natural light works best)
- ✓ Keep the background simple and uncluttered
- ✓ Focus on one piece of jewelry at a time
- ✓ Avoid blurry or dark images
- ✓ Place jewelry on a plain surface or white background

Try taking a new photo following these tips! 💡

...

Q: How do I check my credit balance?

A:

...

🏠 *Credit Balance*

Your credit balance is shown when:

- You try to process an image with insufficient credits
- After a successful composite generation (if balance is low)

To purchase more credits, just type *credits*!

...

Q: Can I get a refund?

A:

...

💰 *Refunds*

Credits are automatically refunded if:

- Image processing fails
- Composite generation fails
- Any error occurs during processing

You'll see a message confirming the refund. No credits are charged for failed attempts!

...
